Problem Solving Strategy

Problem to be Solved

One-sentence prolog summary,
stated as problem-set objective.

("Identify the sea animal.")

Full Prolog Text

The prolog should be
detailed and concise.

Avoid writing lengthy,
unnecessarily complex prologs.

("An earthquake just hit your school.
An unmarked container was damaged
and the contents are spilling out. Can
you identify the chemical that has
spilled so that you can help dispose of
it properly before it becomes a hazard
to the school?")
